Examiner's signature, if required

Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: During the interview, a further clarification of mapping was given. A discourse function refers to a well known definition in the art, where a discourse function refers to a classification of sentences to be declarative, interrogative, imperative, or explanative. Therefore mapping discourse constituents to discourse functions would not refer to mapping discourse to other discourse but rather mapping discourse to a function of discourse as to describe the type of discourse present. Additionally, the selection of a theory/model from a plurality of theories/models of discourse was further clarified. This limitation was not disclosed within the prior art as stated in the previous office action. Therefore finality will be withdrawn upon receiving an officially filed response. Additionally, a new search will be performed with respect to the independent claims discussed as well as all associated dependent claims.
